

Horizon 2020 Grant Agreement no: 814523

**Terahertz end-to-end wireless systems supporting ultra-high data
Rate applications**

ThoR

D7.2

M3 Dissemination material (Website, presentation, fact sheet, flyer)

Coordinator (EU): Thomas Kürner
 Organisation: Technische Universität Braunschweig

Coordinator (Japan): Tetsuya Kawanshi
 Organisation: Waseda University

Start date of project: 01-Jul-2018

Date of issue: 15-Nov-2018
 Due date: 30-Sep-2018
 Ref: ThoR_VIV_181115_A_WP7

**Leader in charge of deliverable: Bruce Napier
 Vivid Components**

Project co-funded by the European Commission within the Horizon 2020 programme and the National Institute of Information and Communications Technology in Japan (NICT)		
Dissemination level		
PU	Public	X
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (including the Commission Services)	

2. Executive summary

A selection of dissemination material has been prepared:

- *Website* A frequently updated website with all public information on the project
- *Presentation* An approved presentation summarising the project and its objectives
- *Business cards* Sent to all partners to hand out to interested parties as appropriate
- *Fact sheet* A two-page summary of the project facts “in a nutshell”

All this material is available for public use, and the presentation and fact sheet may be downloaded from the website.

3. M3 dissemination material

3.1. Public website

A website has been established at <https://thorproject.eu>

This includes all public ThoR documents, and will be frequently updated with events, conference and journal papers as well as all public deliverables. The page structure is as follows:

- Home
- Technology
- Results
 - Newsletters
 - Journal papers
 - Conference papers
- News
- Links
 - ICT-09-2017 cluster
- Events
- Consortium
- Contact and project info

Figure 1: Screenshot from ThoR homepage

3.2. Presentation

A project presentation (29 slides) has been prepared, with input from the consortium. This was approved for public use and was has already been presented by Prof. Kürner at the IEEE 802.15.3d Technical Advisory Group THz meeting (14-Nov-2018; Bangkok, Thailand).

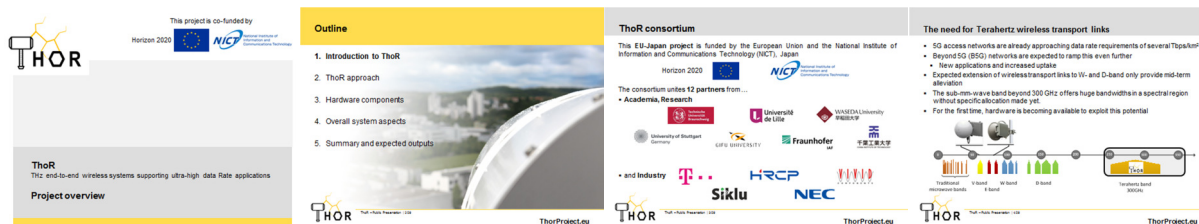

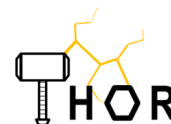

Figure 2: Selection of four slides from the ThoR public presentation

This presentation is available for download from the results page of the public website:

<https://thorproject.eu/results/>

The project will be updated with results throughout the project.

3.3. Business cards

Two-sided business cards have been printed and distributed to all partners. These will be used to promote the project with any interested parties, including day-to-day business contacts, trade shows and exhibitions, conferences *etc.*

[It was agreed that this is a more effective dissemination route than the flyers that were originally planned in the DoA.]

Figure 3: The two sides of the ThoR business cards (NB Black border is shown only for scale.)

3.4. Fact sheet

A simple two-page fact sheet using an EC template has been prepared to summarise the project in a nutshell. This is available for download from the results page of the public website:

<https://thorproject.eu/results/>
